

OFFICE 365 SOLUTION ALIGNMENT AND RAPID MIGRATION

Microsoft® Office 365 takes the industry's most recognized set of productivity and collaboration tools Microsoft Exchange, Microsoft Lync, Microsoft SharePoint and Microsoft Office Web Apps and delivers them as a subscription service. With Office 365, organizations can lower overall costs and deliver the right set of tools for the right users, all with appropriate layers of security and compliance. Microsoft is a trusted provider—millions of customers use the Microsoft Business Productivity Online Services suite today. Moreover, Office 365 includes a financially-backed service level agreement, allowing an organization to feel confident in their decision to move these solutions to an external service.

Project Leadership Associates (PLA) has been responsible for moving over 100,000 users to Microsoft's online solutions. As a leader in on-premise and cloud services, we have developed an approach that allows our experts to help an organization analyze the business and financial benefits of moving to online services.
