Project Leadership Associates Hires Amy Brooks To Lead Information Management Solution Group

CHICAGO, June 12, 2008 – Project Leadership Associates (PLA) announced today that Amy Brooks recently joined the company to lead its Information Management Solution Group. Brooks brings more than 20 years of information technology experience in the legal services profession to PLA. She specializes in information management strategy, plan development, policy, process, application solutions and execution.

In her role, Brooks leads PLA's enterprise content management/document management, records management and knowledge management planning and delivery capabilities. Additionally, she manages key partner relationships and leads information management technology delivery working closely with PLA's technology execution practices.

Prior to joining PLA, Brooks was the Director of Applications at Sonnenschein, Nath & Rosenthal in Chicago where she directed the firm's application strategy and solution delivery, software development, mobility solutions and learning services functions. Prior to Sonnenschein, she held multiple legal practice and information technology positions at Sidley Austin, a top global law firm.

"With the advanced capabilities of today's information and record management systems and the increased complexity of rulesets and data sources, corporations and law firms struggle to store and manage corporate knowledge. We help PLA clients mitigate risk, avoid litigation, improve service delivery and reduce costs," said Brooks. "PLA's broad resource and expertise pool allows our Information Management Solution Group to fill this tremendous need for innovative and pragmatic information management solutions at our law firm and corporate clients."

Specializing in content, knowledge and records management, PLA's Information Management Solution Group delivers business focused solutions for their clients, including:

- Records policy and procedure development
- Records policy impact assessments and implementation planning
- Records and knowledge management organization design and deployment
- Knowledge management strategy and planning

- more -

- Matter-centric (DMS) readiness assessments
- Enterprise search solution definition
- Document, records and knowledge management technology selection and delivery

“Amy’s extensive information technology and management experience and her knowledge of PLA as a former client, made her the perfect choice to lead our Information Management Solution Group,” said Dan Safran, Executive Vice President of PLA’s Management Consulting Practice. “PLA’s Management Consulting Practice continues to experience strong growth. We continue to make high return, strategic investments in experts like Amy Brooks to extend our strategy, process, organization and technology offerings to our law firm and corporate clients.”
